

SOACP Module 15: Fundamental SOA Governance

The basics of governing services, service-oriented solutions and service-oriented enterprises are covered in this course, along with specialized topics, such as models and frameworks for establishing on-going governance practices, as well as strategies that address lifecycle management and individual service governance issues.

The following primary topics are covered:

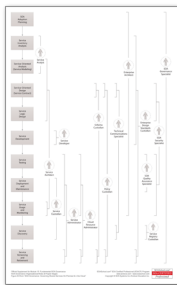

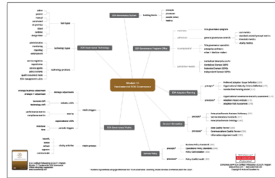

- Understanding SOA Governance Programs, Models, and Controls
- Authoring SOA Governance Precepts, Policies, and Regulations
- Identifying and Defining Organizational Roles in Relation to SOA Governance Tasks
- Defining SOA Governance Processes to Coordinate Precepts and Roles
- Establishing an SOA Governance Program
- SOA Governance Automation Tasks and Technology Types
- Common SOA Governance Technology Products
- Basic Service Information Governance and Policy Governance
- Governing SOA Adoption Planning

Duration: 1 Day
