

SOACP Module 9: SOA Design & Architecture Lab

As a continuation of course modules 3 and 8, this hands-on workshop allows attendees to apply the technologies, concepts, techniques, patterns and principles previously covered in order to complete a set of design exercises.

Both individual and group exercises are provided, requiring participants to solve a number of interrelated problems with the ultimate goal of creating their own design specifications.

The instructor works closely with participants to ensure that all exercises are carried out completely and accurately. Attendees can voluntarily have any exercises reviewed and graded as part of the class completion.

Duration: 1 Day

For more information, visit www.soaschool.com.

Text Books

This SOACP course module covers a range of in-depth topics that are described in the course booklet and further elaborated by detailed technical coverage and case study examples in the accompanying *SOA Principles of Service Design* and *SOA Design Patterns* text books from the acclaimed *Prentice Hall Service Technology Series* from Thomas Erl.

Self-Study Kit

The materials for this course module can be purchased separately as part of Module 9 Self-Study Kit, which includes additional materials and study aids. These materials are designed to prepare you for Exam S90.09 but they are also suitable for general remote, self-paced study purposes.
